9:50-10:00	Opening Session	
	Chairperson: Mehpare Bilhan	
10:00-10:50	Murad Özeydin	A semi-historical introduction to Leavitt path algebras I.
11:00-11:20	Coffee Break	
11:20-12:10	Patrizia Longobardi	On the subgroup generated by autocommutators.
12.20-12:50	Karim Ahmedidelir	Some fascinating features of commutativity degree in finite algebraic structures.
12:50-14:30	Lunch	
	Chairperson: Gülin Ercan	
14:30-15:20	İsmail Güloğlu	Finite groups admitting a dihedral group of automorphisms.
15:30-16:20	Mohammad Shahryari	Algebraic sets with fully characteristic radicals.
16:30-17:00	Coffee Break	
	Chairperson: Sinan Sertöz	
17:00-17:50	Ayten Koç	Representations of Leavitt path algebras over an additive category with Krull-Schmidt.
	Conference Dinner	
23 April 2016 , Saturday		
Time	Speaker	Title of Talk
	Chairperson: Semra Öztürk	
9:00-9:50	Alireza Abdollahi	Kaplansky zero divisor conjecture on group algebras over torsion-free groups.
10:00-10:50	Mercede Maj	Recognize some structural properties of a finite group from the orders of its elements .
11:00-11:30	Coffee Break	
	Chairperson: Mustafa Akkurt	
11:30-12:20	Murad Özeydin	A semi-historical introduction to Leavitt path algebras II.
12:30-13:00	Ahmad Erfanian	Triangle-free commuting conjugacy class graphs.
13:00-14:30	Lunch	
	Chairperson: Songül Esin	
14:30-15:20	Gökhan Benli	Universal groups of intermediate growth and their invariant random subgroups.
15:30-16:00	Coffee Break	
	Chairperson: Müge Kanuni	
16:-16:50	Mohammad Reza Darafsheh	Products of finite groups
17:00	Closing session
